

**ABANDONED CARDBOARD BOX PUPPIES:** These four puppies were only 4-weeks old when found. They had been abandoned in a cardboard box on April 15<sup>th</sup>, 2010 near Termonfeckin, in County Louth. A passer-by just happened to come across them on his way to work that morning and fortunately for these pups, they were taken into immediate care and given the attention they needed, otherwise they wouldn't have survived a day without food or warmth. Along with dedicated fosterers, DAR worked at caring for

these puppies and rehomed them only when they were fit and healthy at 10-weeks of age.

Your donation is desperately needed to enable Drogheda Animal Rescue to continue its ongoing care & support for abused, neglected, homeless, injured, and abandoned animals like the Termonfeckin puppies.
